DETAILED ACTION

1. Applicant's arguments with respect to claims 11-14 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1-14 are rejected under 35 U.S.C. 102(a) as being anticipated by EP1069488 (EP'088). See especially Figs. 1-4 on page 22-25; pages 20-21, claims 1-12; and page 8, paragraphs [0062] to [0063]. The EP'088 discloses the process of forming an organic silver salt using mixing means and the process of preparing of suspensions of silver salt of an organic acid of the present claimed invention. Therefore, the claimed invention lacks novelty.

4. The translation of the priority document submitted on May 8, 2003 fails to overcome the rejection above since it fails to provide support for the claimed invention.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
